Some of the best, rowdiest local multiplayer fun I've ever had—like a long-lost "grown up" companion to SportsFriends: fluid, fast, and super easy to pick up...but not a stretch to imagine it gathering a seriously competitive crowd.

I can't imagine having a living room PC without this—it feels like the purest social gaming experience outside of an arcade.. Super fun game and awesome animations. The characters are endearing and the game gives you a lot of freedom to explore. Plus, you can't go wrong with a pocket-boat!. Worth \$2 and an hour of your time. like the crisis in the kremlin and Ostralgie this is a great and fun game!. It's a really fun game!. Overall I really enjoy this game! The art style, references to horror media, and constant action make it really enjoyable. The game gets pretty challenging and forces you to make some tough choices on pathing throughout the mansion and when to do certain things, overall really fun. If you are interested in seeing some gameplay, below is my run that at the time was the second highest score in the game.

<https://www.youtube.com/watch?v=a3hsMJGEsdk>. This was a lot of fun, well designed. Too short.. I was not expecting too much from this game but its not even got an ending. You get to a point in the game where there is nothing else to do.. Good game. looks like a DEMO but a hope they will invest time and funds to make it better.. Many bugs. animation issues and stock assets. I can easily look over those and was into the gameplay for a few minutes until I found out the entirety of the game is find x amount of keys to open a door, then walk to the next door and do the same thing.

[I'd say this game has a decent base. They've got locational damage for enemies and a big world.](#)

[Sadly there just isn't any gameplay or feeling like I want to find another hundred keys to unlock a few doors. Add in some compelling gameplay and I'll come back.](#)

great game worth the price.. wow. Absolutely loved everything about this game. The artstyle was beautiful yet disturbing in some places. The soundtrack is perfect and it really gets me into the game. The puzzles were nicely structured and the plot is magnificent. Can't wait to see what else you have in store for us! :D. I love the art in this 2D horror game! Everything is pretty much on spot.

The story and lore is very interesting and fresh.

The only thing that I didn't like is the run & hide mechanic.

It works well at the beginning, but I found it very boring when it happens a lot later on cause you don't do anything when you hide. You just wait until everything is clear.

Well, I enjoyed it very much. If you hate school, but like spooky stuff then go for it ;). Although it seems like a boring game at first, it gets more and more interesting. The place where the story takes place is unique, and the characters have some very interesting personalities. It was interesting to play it and get to every possible end. I'm sorry it ended so fast without having to save all the forest, but all she says is that it's a very good game, even if this gallery is corrupted because it does not show you all the pictures even if you unlock them after you finish playing the game several times in different ways.. I originally got the game only for my profile achievements, but its actually a really fun and addicting game! I'd recommend it. Amazing soundtrack, basic gameplay. My favorite!. my game has glitched out so bad its only got like half a screen i cant go into my setting because i cant see them and when im hovering over setting my mouse is on exit game and when i click settings it exits the game. please someone help.. As dumb as this game is IMO, its actually pretty fun with friends. Though its a bit glitchy. not bad.. nice dlc :) greatly done. A game with a good concept but poor implementation. Modes don't feel that varied. Controls seemed a little bit awkward, and at times unresponsive. A poor showing for something that has time sensitive elements to it. More frustrating than it's worth.
