I've been playing for a bit and I'm having a blast it's fun after a couple of hours.... I got this game for free but I would not be upset with paying for it.. This game...

Is the best 9p I've ever spent :)

. Buying this game is the awesome solution.. Fantastic Visual Novel. Took me 60 hours to get the True Ending, and it was so worth it. Be warned, parts of Route B and D feel like boring filler but the rest of the VN is amazing. The story goes to places you wouldn't imagine from the description. All I can say is, if you want an interconnected group of stories that all create one incredible timeline that blew my mind, play this game.. To play co-op (pc/tv screen and vr) it's the best game for it so far!

My gf and me have so much fun with this one!

It's like you are in a real kitchen! doing the same moves you would do normally

This is also fun to play with friend while drinkin a beer.

Deff worth a try if you ask me!

still one of the best vr co-op. Fun with friends.. HAS A LOT OF POTENTIAL THINK WILL BE GREAT BUT IS VERY EARLY ACCESS SO WILL KEEP HOLD OF IT. If the Far Cry series was represented by Tim Curry's acting career then Far Cry 5 would take place after Tim Curry's stroke.

This is the most accurate and politically incorrect way to describe Far Cry 5 in a gaming review.

. It's chill-tastic. 'nuff said.. Arrrgh...

Algiers and Tunis units look like peasants, i'd rather use the default unit graphics. They look like peasant armies rather than professional ones. Moreover, north african are caucasoids and not black.

Italian 17th century chainmail armor? wtf...Paradox you ruined this one damn you. I really wanted to like this game however the current amount of content is extremely lack luster and some aspects are quite buggy and dont always work which stops me from progressing.

for right now I wouldn't recommend but id quite happily change this review to a positive once the game is more fleshed out. This game sucks, You cannot slash midair or while moving which makes the game unplayable. and you have to kill EVERY enemy before entering the next level, which is tedious. The music sucks. In general I cannot think of anything good to say about this game. It is named so similar to the Castlevania that I thought it was a half decent platformer, and I got crap. Thank goodness I got a refund.

In all, I rate this a 1.8/10.

-David. this game is very spooky. the only downside to this game is that its a ded meme now.. After driving routes 15 and 25 so far i have to say that this dlc is brilliant. although the bus looks familiar it has been tweaked to sound better, and has an easy to use ibis.

a thumbs up from me based on my gameplay so far.
